

MetaLINK Technologies, Inc. Network Management Practices Policy Disclosure

Pursuant to the Federal Communications Commission's newly enacted Open Internet Rules found in Part 8 of Title 47 of the Code of Federal Regulations, Com Net, Inc. (MetaLINK Technologies, Inc.) policies regarding network management practices, performance characteristics, and commercial terms are provided in entirety so that MetaLINK Technologies, Inc.'s current customers, prospective customers, third-party content providers and other interested parties can make informed choices regarding the broadband Internet transport services offered by MetaLINK Technologies, Inc., and the extent MetaLINK Technologies, Inc.'s network management practices may affect those services.

Network Management Practices

MetaLINK Technologies, Inc. utilizes reasonable network management practices tailored to achieve legitimate network management purposes. By engaging in reasonable and responsible network management, MetaLINK Technologies, Inc. prevents its customers from being subjected to the negative effects of spam, viruses, security attacks and other risks that threaten to degrade service. The network management practices employed by MetaLINK Technologies, Inc. are consistent with industry standards.

Congestion Management

MetaLINK Technologies, Inc. does not employ any congestion management tools and/or software on network traffic. MetaLINK Technologies, Inc. maintains sufficient bandwidth to service its customers.

MetaLINK Technologies, Inc. employs a standard best effort Internet delivery policy to ensure that any organization, institution or entity connected, directly or indirectly, to MetaLINK Technologies, Inc.'s backbone network may exercise choice in lawful Internet content, web-based application and use of MetaLINK Technologies, Inc. or competitor service, including any device which is not harmful to the network.

Network Openness and Fair Use

MetaLINK Technologies, Inc. actively engages and encourages open settlement-free peering with providers and operators. MetaLINK Technologies, Inc.'s network management policies prohibit the discrimination of legitimate or legal use of network capacity bandwidth by application, source or use of the network. MetaLINK Technologies, Inc. Network does not limit or impose any limitations on users at subscribing organizations to lawfully possess, use, or distribute Internet content.

All of the preceding is subject to the needs of law enforcement. MetaLINK Technologies, Inc. does not favor any lawful Internet applications or content over others, and is committed to enabling competition among network providers, application and service providers, and content providers.
